

To whome it may concern

As a small landowner  
with 100 acres in central  
Missouri I am completely  
in favor of country of  
origin labeling

I feel that your 2 billion  
dollar estimate to get COTI  
up and running is too high but  
even if it isn't I think it will  
pay off down the road for  
USA cattle growers.

I think it is only right to  
allow the consumer to choose  
between USA born and raised  
beef or beef from Mexico  
or some other foreign country
